

PANDA SLIDE

Instructions

Maintenance:

- Before each use, do make sure all the fasteners are firmly tightened and all the parts are securely fastened.
- Always wipe the product with a plane, dry cloth regularly and avoid using harsh chemicals

Caution:

- The product must be assembled by an adult only. Keep all the parts out of the reach of kids until the product is fully assembled.
- Always sit upright and go down feet first on the slide. Also, abstain from jumping off the slide seat.
- Packaging materials are not safe to play with and should be kept away from kids.
- Always place the product on an even surface. Using it on a rough surface can make it unsteady and may cause injuries.
- Adult supervision is recommended when kids are using this product.

Warnings:

- Always assemble on a non-abrasive surface, ideally a carpet, to avoid scratches and make sure there are no sharp objects placed nearby.
- Avoid over-tightening the nuts as it may damage the parts.

Required Assembly Parts

1 STEP Assembly Instructions

Big Slide x 1

Small Slide x 1

Key x 1

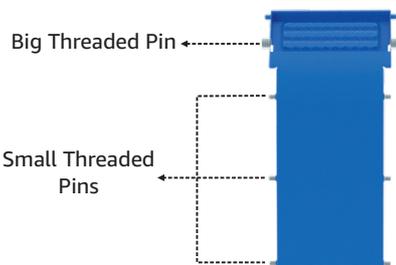

Small Nut x 6

Handrail x 2 (LHS & RHS)

Before starting the assembly, lay out a carpet on the floor to avoid scratches.

Take the big slide and one handrail. Big slide features 4 threaded pins on its each side - one big threaded pin and three small ones.

Align the three small threaded pins on one of the sides of the big slide with holes on the left handrail. Push the left handrail towards the big slide, allowing the three small threaded pins to pass through the holes.

Do make sure the handrail is placed correctly, following the orientation as shown in the image above.

DISCLAIMER: ACTUAL PRODUCT COLOR MAY VARY FROM THAT SHOWN IN THE IMAGE

CAUTION
Do not overtighten the nuts.
Tighten only until secure.

Take three small nuts, put one each on the three small threaded pins protruding from the side handrail as shown in the image and tighten with the key provided in the packaging.

Take the small slide and align the pin on one of its sides with the circular groove on the inner side of the handrail. Push the small slide towards the handrail, sliding the pin into the groove.

Attach the right handrail with three small nuts as shown in the image.

CAUTION
Do not overtighten the nuts.
Tighten only until secure.

2 STEP

Required Assembly Parts

Right Panel x 1

Step x 2

Big Nut x 2

CAUTION
Do not overtighten the nuts.
Tighten only until secure.

Take both the steps from the packaging and fasten them one by one to the right panel with big nuts, using one big nut per step.

Note: The right-side panel is identified by the letter "B" embossed on its inner-facing side (the surface that faces inward during assembly).

3 STEP

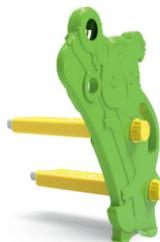

Required Assembly Parts

Subassembly (Step 1)

Left Panel x 1

Subassembly (Step 2)

Big Nut x 4

Take the subassembly (step 1) and secure it to the subassembly (step 2) with one big nut.

Note: The left panel is identified by the letter "A" embossed on its inner-facing side (the surface that faces inward during assembly).

CAUTION
Do not overtighten the nuts. Tighten only until secure.

Attach the left panel to the subassembly with three big nuts as shown in the image.

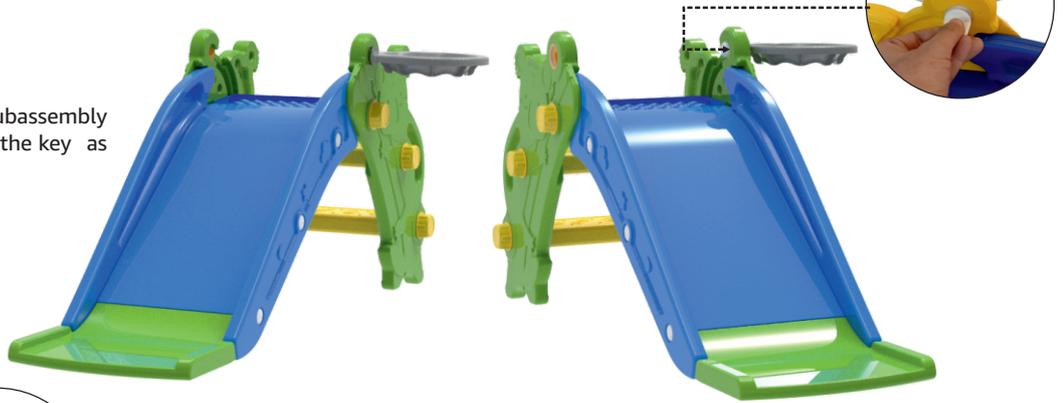

4
STEP

Required Assembly Parts

Take the basketball ring and secure it to the subassembly (step 3) by tightening one medium nut with the key as shown in the images.

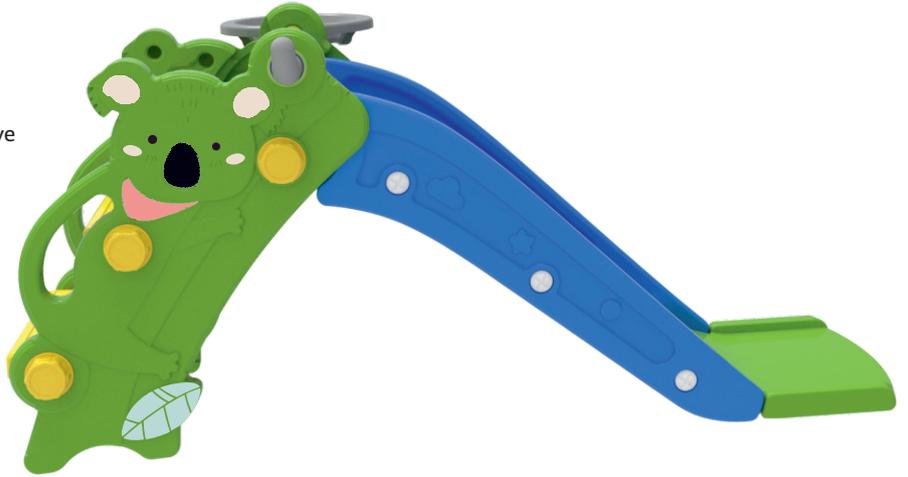

Fasten the toss ring hanger to the subassembly by tightening a medium nut with the key as shown in the images.

CAUTION
Do not overtighten the nuts. Tighten only until secure.

Take the sticker set and paste the stickers at their respective positions on both the side panels as shown in the image.

Your Panda Slide is now ready for use - let the good times roll!
