

# WOODEN TABLE SET ASSEMBLY

This Standard Operating Procedure (SOP) describes the step-by-step process for assembling wooden table sets equipped with metal legs. It applies to all table models that use wooden table top.

## Key Considerations

### Maintenance:

- Before each use, make sure that table is not wobbly.
- Always wipe the product with a plain, dry cloth regularly and avoid using harsh chemicals.

### Caution:

- The product must be assembled by an adult only. Keep all the parts out of the reach of kids until the product is fully assembled.
- Always place the product on an even surface. Using it on a rough surface can make it unsteady and may cause injuries.
- Packaging materials are not safe to play with and should be kept away from kids.

### Warnings:

- Always assemble on a non-abrasive surface, ideally a carpet, to avoid scratches and make sure there are no sharp objects placed nearby.
- Avoid over-tightening the fasteners as it may cause damage to the parts.

## Assembly Instructions

Place the tabletop face down on a clean, soft surface to protect it from scratches.

Take one leg and align its mounting bracket holes with one set of holes on the underside of the tabletop. Secure the leg to the table top by tightening screws with a screwdriver, using one screw per hole.

**Do not overtighten, tighten just enough to ensure a secure fit.**

Similarly, secure the remaining legs to the table top.

Turn the table right-side up.

*Before starting the assembly, please ensure that the part quantity matches the numbers listed in the manual. If you find any discrepancies in the part count or encounter any product-related issues, feel free to reach out to us at +918221001033 or connect with us via WhatsApp in between 9:30-6PM, Monday to Saturday. We're here to assist you!*
