on deferred payments to Pak after deal expires

Pakistan has not received the oil on deferred pay-ments from Saudi Arabia since May as a deal signed between the two-dose allies for provi-sion of USD 3.2 billion worth

emment over its request to fur-ther extend the facility, he added.

The development comes at a time when Pakistan faces a challenging situation as its MI programme also remains tech-nically suspended for the last five months.

Returning of Saudi Issans and expiry of the oil facility could strain the official reserves of the central bank, which are built purely by talong loans, the paper said.

The budget estimates sug-gested that the government was hoping to receive mini-mum USD 1 billion worth of oil in fiscal year 2020-21, which started from July.

Pakistan has already returned USD 1 billion Saudi

Coal India revises FY'21 production target to 650-660 mn tonne amid Covid-19 crisis

Mining major Coal India
Mining major Coal India
Mind has revised its production target to 650-660 millism tonne for the 2020-21 fiscal in the wake of disruptions
caused by the COVID-19 pandemic, a top company official
said on Saturday.
The miner had earlier set a
target of 710 million tonne for
the fiscal.
COVID-19 pondemic has
affected demand for coal.
However, it has started to pick
up now as the industries have
commenced operations. Given

Agrawal said.

In July-end, demand was bigher by 7-8 per cent, while in the first week of August, it saw an uptick of 13-11 per cent, officials said.

The "Maharatras PSU had produced 602 million tonne of coal tast years as against a target of 630 million tonne. On sommercial minimg of coal, Agrawal said to will help mirroduce a market-linked price mechanism and benefit the state-owned mining behemoth, contrary to specula-tions.

"Market-linked prices will benefit Coul India," he said dur-ing, a webinar organised by Bharat Chamber of Commerce.

The company is also trying to supply high-grade eval from select subsidiaries to coastal consumers largely dependent on imports.

The Kolkata-based miner is trageting 70-80 million tonne of coal for import replacement in the southern and western parts, the officials said, adding, a special e-auction window is being moroted exclusively for importers.

Around 240 million tonne of coal per annum is imported at present.

The mining major said it is looking at options for the looking at options for the looking at options for the proposal complex, which might wind up unless any worthwhile proposals come forward.

PSBs need to step up provisioning to restructure Covid-hit loans

Dublic sector banks would need to increase their provisioning buffer factoring in the incremental provisioning requirement on restructured loans and potential NPAs, a report said.

To discourage rampant and unviable restructuring, the RBI has now mandated that banks will be required to make high provisions at 10 per cent on cestructured retail/corperate loans (20) per cent on corp loans for banks outside inter-creditor agreement).

According to analysts, higher provisioning cost would deter unwarranted restructuring Bat, this would put pressure on the PSBs to accelerate the pace of increasing their provisioning buffer or disallow restructuring, even in genuine case of stress due to the Covid-19 pandemic. 'Assuming Covid-19 induced stressed loans at 10-15 per cent
